Stockholm, Sweden // Happy to relocate

about

I'm a tech geek with work experience in the Cyber Security area looking for new challenges and opportunities in the Security Domain as a **Security Consultant**. I am highly motivated to consult people and businesses in the Security field because of loving to explore systems and that is my passion.

experience

Security Engineering Manager @ Ericsson / Stockholm 🇸🇪

Mar 2021 – present

- Spearheaded a team of 12;
- 50+ successful pentests;
- Hired 7 Security Masters (Security Team Leads);
- Developing a roadmap for the Cloud RAN Project (securing the Cloud RAN Libraries), project is still ongoing;
- Developed and released the Privacy User Guide & Security Design Rules;
- Implemented Acunetix for VA Team, and it saved 40+ hours weekly job of the testers.

Area of responsibility: Static code review, penetration tests, Security Architecture && Security Design rules, VA Testing.

Senior Security Engineer @ Accenture / Moscow 🇷🇺, Chicago 🇺🇸, Stockholm 🇸🇪

May 2018 – December 2020

- Initiated and implemented a tool for static code analysis (Sinopsys Coverity);
- Audited the architecture from the Security perspective for the Client;
- Conducted lectures about white hacking for students (Stockholm, Chicago) and demoed them how to hack;
- Have done successful penetrations tests for the Clients in Sweden && Chicago;
- Created architecture for the National digital signature service for the Central Bank of Russia;
- Lead team of analysts;
- Implemented the Agile Methodology into the team I joined.

Automation Engineer @ Hewlett Packard Enterprise / London 🇬🇧, Moscow 🇷🇺

Nov 2017 – May 2018

- Initiated automation of client's high-load systems;
- Created a system for automatic data collection that became a part of the Client's banking system;
- Built an app for collecting, analysis and displaying server's data in a graphical view.

Web developer @ Progress Soft / Moscow 🇷🇺

Dec 2016 – Nov 2017
